## Software

### Playing Audio and Video

Video files on Gutenberg-e are viewable with either Quicktime or RealOne Player. Audio files may require Flash player. These programs are often included as plug-ins for browsers. If you experience problems viewing video on gutenberg-e you may have to download the free plug-in. Before downloading, be sure that your computer fits the minimum system requirements for downloading and running the software.

- Download Quicktime
- Download RealOne [Player]
- Download Flash [Player]

## Viewing and Printing Documents

Some documents on gutenberg-e are available in PDF (portable document format) and must be viewed with Adobe Acrobat Reader.

- Download Acrobat Reader

If you have further questions about using Gutenberg-e, you can request help via gutenberge-help@columbia.edu.
